GO-DEVIL BOATS

Go-Devil has been offering boat and motor combinations to fit every need since 1977. The foundation of every boat is the 3/8-inch-thick, single sheet hull. All boats come standard with grab bar, navigation lights, push pole and spacious deck. Godevil.com; 888-490-3254.

ELECTRIC JERK FLAG

In a quest for the ultimate line of decoy accessories, Banded developed a two-position electronic flagging system. The unit operates by remote control and duplicates realistic wing movements. Works with 12-volt battery. Battery sold separately. Banded.com; 888-992-6299.

BLACK CLOUD TUBE

This new tube is a constriction choke compatible with Black Cloud ammo that also shoots well with other ammo brands. Working with Federal, Patternmaster's design enhances Flitecontrol wad performance. Patternmaster.com; 877-388-2259.

GHG'S PRO-GRADE SPECK

This new hand-painted decoy has a sleek design, uses StudLoc head connections and has the same head positions as GHG's Pro-Grade Snow Geese. Uses RealMotion system with stakes. Feeders and Actives. Greenhead-gear.com; 800-333-5119.

BLIND SIDE 20 GAUGE

Winchester's Blind Side loads include proprietary hex-shaped pellets inflicting more damage on waterfowl than standard steel shot. They're available in several popular 12 gauge variations, but now also in potent 3-inch 20 gauge in shot sizes 5 through BB. Winchester.com.

SHADOW GRASS BLADES

Mossy Oak Shadow Grass Blades camo fools the bird's eye—exactly what camouflage is supposed to do—filling the missing link of pure grass elements on thatch and shadows. Blades is offered on some of the best fowling goods on the market today. MossyOak.com; 662-494-8859.

PRO-DRIVE T-RAIL

Pro-Drive boats' T-Rail heavy-duty gunnel makes accessories an endless possibility. Tie-down eyes, dog platforms, grab bars, rod holders, rope cleats and more are all available. New models feature extended front decks. Prodrive outboards.com; 337-229-0034.

MOJO FATAL SHOT TUBE

In partnership with Rob Roberts Custom Gunworks, Mojo introduces a choke that patterns with all types of loads. The non-ported tube provides consistent point of impact, while grip allows changing chokes without tools. Mojooutdoors.com; 866-216-6656.

KICKS' HIGH FLYER

Kicks' High Flyer Choke Tubes optimize shotgun patterns whether shooting long-range geese or tight-decoying ducks while using any nontoxic shot option. They're offered in 10 through 20 gauges and for most popular shotgun brands and models. Kicks-ind.com; 800-587-2779.

CUPPED AND COMMITTED MOTION FLYER DECOY

If you're looking for the ultimate realism in your goose spreads, Heavy Hauler's snow and Canada Cupped and Committed motion/flier decoys deliver the goods. They include industry-first, built-in wing springs that help create attention-grabbing and lifelike movement in even the lightest breezes. They can be set to imitate a flapping/gliding configuration or cupped and committed imitation. They set up and break down quickly via wing struts inserted into the pivoting motion component, just like standard goose flags. Buy singly or in three pack. Includes a handy storage bag. Heavyhauleroutdoorgear.com; 712-540-3605.
